

# Emblem

Emblems are used to visually represent an organisation's values and integrity. The Emblem for Restless Development is all part of establishing our brand identity and creating unique, eye-catching visuals used by our hubs and networks around the world.

Our emblem has been created as a non-text based symbol to use on marketing materials. This will help our brand reach people who don't speak English or cannot read. Our emblem represents youth power and young people's voices, which is at the core of our beliefs.

- Do use this when you want a non-text based symbol to use on marketing materials.
- Don't use it instead of the logo.
- Don't use it as part of the logo.

**Young people have powerful voices,  
we are hear to make sure they are heard.**
