

## ABOUT RESTLESS DEVELOPMENT

We know young people have the power to solve the challenges we face in our world, but they are being ignored and overlooked. We are the agency that works with young people so they can lead in solving those challenges. Whether that means supporting communities to end child marriage or prevent HIV, we work with young people to change their lives and the lives of people in their communities.

Our programmes are genuinely life-changing, but can't do any of this without talented, creative individuals at every level of our organisation.

## OUR APPROACH TO SAFEGUARDING

Restless Development considers the welfare and protection of children, young people and vulnerable adults to be an organisational imperative with primacy over the success of programmes or strategic objectives. We recognise that safeguarding is everyone's responsibility and we expect all of our staff, volunteers and partners to ensure we protect the communities in which we operate from harm and abide by our [Safeguarding Policy](#).

## ABOUT THE ROLE

Restless Development in Tanzania has been operating for over 25 years working across 18 regions including rural and urban areas. Our vision is young people taking the lead in addressing the most urgent issues facing their countries and the world, supported fully by their governments, their communities, businesses and civil society institutions.

We are looking for an innovative person with the right communication skills to join our team in an exciting role, which will push you to take the lead in developing our internal and external communications with key stakeholders, the media and staff.

You will be a highly creative and self-motivated individual with strong organizational skills, and excellent verbal and written communication skills in English and Swahili. We are looking for someone with strong ICT skills, experience with content creation for multiple communication platforms including social media, and open to learning about new technology and communication tools. Experience in photography and videography would be an added advantage.
